

FEMA Description and Care Cloth Face Coverings

Description of Face Coverings

The face coverings are 100% cotton and contain silver and copper to help prevent the growth of viruses and germs.

Mask Size: Adult one-size fits all

Fabric is 100% cotton, white in color and loops over the ears.

About the Masks Face Coverings

The face coverings are a source control mechanism only.

They do not replace medical grade personal protective equipment such as N95 respirator masks, and should not be considered a substitute for the N95.

Fabric has been treated with a silver and copper solution reported to have some antimicrobial properties.

Care of Face Coverings

Covers may be machine washed warm up to 15 times before discarding. Tumble dry high. Do not use bleach, chemicals or disinfectant to wash this product.

If skin irritation occurs, immediately stop using the face covering. If irritation persists, consult your primary care provider.

Be mindful when wearing this product if you have lung disease, like emphysema, or chronic heart disease. Stop using this product if you notice difficulty breathing while wearing it.

If you are aware of any organization that is using or distributing the masks in a manner that is not in keeping with donor intent, please notify:
